

INTENZA INSTALLATION PORTFOLIO 501 SEVENTEEN FORT LAUDERDALE

intenza

Located west of Fort Lauderdale Beach, Florida, Curv at 501 Seventeen is architectural glamour— South Florida style. An Art Deco—influenced building designed for retail, work and living, everything residents could need is accessible without ever needing to step out of the property: a 24—hour Fitness Center and Yoga Studio, Whole Foods Market, private courtyard with resort—style pool, work spaces and more bring different types of activity to spaces at all times throughout the day.

Rapid growth in urban centers continues to spur planners to create new solutions and like Intenza, 501 Seventeen sustainably utilizes resources through the design of their mixed—use property to thoughtfully combine different functions within the same building. Here home, work, shopping and wellness spaces interact and enrich each other.

With an emphasis on work—life balance, 501 Seventeen offers sleek places for coworking—out: the Business Center, private meeting rooms and shared spaces keep residents productive whilst the Fitness Center (open round the clock) provides a venue to de—stress, recharge during the working day or connect with those who have a shared interest in wellness.

• **INTENZA 550 Ce2 ESCALATE STAIRCLIMBER** The Ultimate User Experience. Setting a new standard, the 550 Ce2 redefines the stairclimber product category through its Smart Step—Height™ value proposition by offering the broadest range of users from fitness enthusiasts, who recognise the value in being able to regulate step height intensity to active agers, to beginners or those engaging in post—surgery progressive exercise, a spectrum of 20 different step heights 4" through 7.7". Variations in incline, speed and exercise settings allow for a training and exercise experience that is more versatile than any other stairclimber has been able to offer.

Easy to set up, exercise and entertainment go hand in hand for 501 Seventeen residents who can watch, read or listen on Intenza's e2 Series consoles with Intenzacast™. Powered by our exclusive technology, Intenzacast™ seamlessly mirrors content from smart devices onto the console to create a personal entertainment portal with options based on your choice.

If a strong beat is what motivates you, connect your earphones via the 3.5mm jack or, go wireless with your bluetooth headset.

• **INTENZA 550 Te2 TREADMILL** Not your average treadmill, the 550 Series is built to stand up to the most demanding gym environments and has appeal to those who want more out of their treadmill workout while still accommodating regular treadmill users. With a top speed of 25 km/h the 550 Series enables users to train at a greater variety of paces, including those ideal for a mile to marathon length run or sprint, and the increase in maximum incline from 0—15% is great for walkers who want an additional challenge with an increased opportunity for fat burn. Designed and engineered for exceptional dynamics, the iconic Intenza 550 Series Treadmill is made for runners.

Featuring 40 levels of resistance to match your fitness level, this incredibly fluid machine affords a variety of workouts, from lengthy, steady—state cardio sessions to short, fast—paced interval training and with a stride length of 52—55cm (20.4—21.6”) ensures a comfortable and effective session for taller users. And importantly, the feet of those training are correctly supported during strides through the focus of weight being placed on the whole foot, not the toes, so any numbing sensation or over—working of the calves is eliminated.

• **INTENZA 550 ETXe2 ELLIPTICAL TRAINER** Easy to operate and natural to use, the Intenza 550 ETXe2 mimics the body's natural movements, making it a great option for engaging multiple muscle groups as well as providing an effective cardio workout that benefits the core, balance and coordination. And, because an elliptical combines the movements of running, and stairclimbing, without the bodily impact; this makes the ultra—smooth 550 Series a great solution for exercisers who desire a gentler workout without over exerting the joints.
