

INTENZA INSTALLATION PORTFOLIO **UGYM**

intenza

Located in beautiful Tillicoultry, Central Scotland is uGym, a family—run fitness business with big ambitions. Injecting energy into the heart of the community, uGym is the go—to local spot for fitness and recreation however with its state—of—the—art offering this unique fitness space has the potential to rival, or even out perform its urban counterparts.

Through adaptive reuse, the property's past inspired its present industrial chic design. uGym tapped into the building's architectural potential and the former mill has now been given a new lease of life. Investing efforts into creating a motivational culture on the gym floor, training zones are divided by walkways. The main floor hosts a free weight and strength area complemented by the 550 Series Intenza cardio suite. From work to (work)out, uGym members can soak in the ambience the building affords whilst feeling inspired by the innovation Intenza delivers.

Not your average treadmill, Intenza's 550 Series is built to stand up to the most demanding gym environments and has appeal to those who want more out of their treadmill workouts. With a top speed of 25 km/h the 550 Series enables users to train at a greater variety of paces, including those ideal for a mile to marathon length run or sprint training, and the increase in maximum incline from 0—15% is great for walkers who want an additional challenge with an increased opportunity for fat burn. Designed and engineered for exceptional dynamics, the iconic Intenza 550 Series Treadmill is made for runners.

One machine, countless benefits. The award—winning Escalate Stairclimber is the ultimate user experience. What distinguishes the Intenza Escalate from others in its category is its innovative and inclusive functional touches which seamlessly fuse design with function and versatility. With our patented Smart Step—Height™ technology, this stairclimber accommodates diverse fitness levels through offering 20 different step heights, 10—19.5cm (4—7.7”), making it ideal for active agers, those looking for an intense HIIT experience or who need a low—impact rehab session. Its smooth lines, contoured handrails and eye—catching structure give the cardio floor a contemporary aesthetic.

• **INTENZA 550 Ce2 ESCALATE STAIRCLIMBER** The Ultimate User Experience. Setting a new standard, the 550 Ce2 redefines the stairclimber product category through its Smart Step—Height™ value proposition by offering the broadest range of users from fitness enthusiasts, who recognise the value in being able to regulate step height intensity to active agers, to beginners or those engaging in post—surgery progressive exercise, a spectrum of 20 different step heights 4" through 7.7". Variations in incline, speed and exercise settings allow for a training and exercise experience that is more versatile than any other stairclimber has been able to offer.

reddot design award

Featuring 40 levels of resistance to match your fitness level, this incredibly fluid machine affords a variety of workouts, from lengthy, steady—state cardio sessions to short, fast—paced interval training and with a stride length of 52—55cm (20.4—21.6”) ensures a comfortable and effective session for taller users.

Not your typical elliptical, Intenza’s incline feature offers 16 levels up to 40 degrees allowing for a change in motion shape and preparation for climbing—specific goals, such as hiking or trail running or the targeting of lower—body muscle groups. And most importantly, the feet of those training are correctly supported during strides through the focus of weight being placed on the whole foot, not the toes, so any numbing sensation or over—working of the calves is eliminated.
