# 600ML ETHANOL 150ML WATER

TO PROTECT YOUR MEMBERS WHILST MAINTAINING YOUR BEST ASSET, CLEANING GYM EQUIPMENT PRE AND POST—USE CAN CREATE A SAFER EXERCISE ENVIRONMENT SO WE RECOMMEND INCREASED DAILY MAINTENANCE. WIPE DOWN MACHINE FRAMES, SEATS, HANDLEBARS, OTHER POWDER COATED SURFACES AND CONSOLES WITH A SOFT CLOTH DAMPENED IN A SOLUTION OF 75% ETHANOL— WE SUGGEST THAT YOU DO NOT SPRAY LIQUIDS DIRECTLY ONTO INTENZA PRODUCTS.

IN ORDER TO MAINTAIN CORRECT CONSISTENCY, MEASURE 600ML ETHANOL AND 150ML WATER SEPARATELY, THEN DECANT BOTH LIQUIDS INTO A REFILLABLE BOTTLE WITH SPRAY NOZZLE. PLEASE AVOID USING AMMONIA, ACID—BASED OR PETROLEUM—BASED SOLVENTS ON ANY SURFACE AREA OF INTENZA EQUIPMENT AS THIS MAY DAMAGE THE PRODUCT OR CAUSE SKIN IRRITATIONS. AFTER CLEANING, IT'S BEST TO DRY THE FRAME COMPLETELY WITH A CLEAN CLOTH AS THIS WILL PREVENT CORROSION OR RUST FROM FORMING. WE FURTHER RECOMMEND THE USE OF NON—ABRASIVE WHITE CLOTHS, FOR CLEANING, DRYING AND DISINFECTING SURFACES, TO AVOID ANY COLOUR TRANSFER OR SURFACE ABRASION.
